

An Updated **Meta-Analysis** of Randomized Controlled Trial Assessing the Effect of Neoadjuvant Chemotherapy in Advanced Gastric Cancer

^bMedically able to tolerate major abdominal surgery.

^dSurgery as primary therapy is appropriate for T1 cancer or actively bleeding cancer, or when postoperative adjuvant therapy is preferred.

^eSee Principles of Surgery (GAST-A).

^fSee Principles of Systemic Therapy (GAST-B).

Note: All recommendations are category 2A unless otherwise indicated.

Clinical Trials: NCCN believes that the best management of any cancer patient is in a clinical trial. Participation in clinical trials is especially encouraged.
